Property Preservation Management Made Simple...

There is a simpler way to send, receive and manage maintenance requests on your properties.

With our online work order processing system, [brokers and agents](#) now have an efficient user-friendly solution designed to improve the process of submitting and managing REO property maintenance requests. Using Property Transactor will save you time allowing you to [track the progress of your requests in real-time](#). When progress notes have been submitted on requests, they are immediately updated in our system for viewing, and instant email updates are sent when the requests are marked completed.

Our application has an ease-of-use that makes tracking and management of your property preservation process easy. Whether you are a [real estate broker](#), [agent](#), [general contractor](#), [field rep](#) or [vendor](#), Property Transactor is the application that will help to improve your office's property remediation and REO process flow.

Property Preservation at Your Fingertips...

Ordering services for your properties is easy. Just log in, add or select your property, and submit your request. Your request will be immediately assigned to vendors covering the area in which your property is located. Soon, you will also be able to rate them on their service and turn around. There are many more features contained within, such as the ability to submit a high priority emergency request.
